Orte / Places

Throughout the city, institutions open their doors and complement exhibitions with a diverse programme of workshops, guided tours, talks and performances.

All the latest information on the programme of 200 events

All the latest information on the programme of 200 events is available on the website.

Infopoint & Kid's Programme

Just drop by! The information point inside kHaus → **49** on Unterer Rheinweg is open daily from 11 am. Here you can find information about Kunststage Basel and the programmes of the participating institutions. The "Kunstpass" – a scavenger hunt through Basel's art institutions for children aged 5 to 12 – is also available at the information point (in German).

Kunsttage Plaza & Art Education

At the Kunststage Plaza in kHaus, everything revolves around food and cooking as practices of care, exchange, and experimentation under the title "Culinary Infrastructures". An installation by Leonardo Bürgli Tenorio transforms the space into a fermentation laboratory, where culinary and artistic processes coexist. Daily themed talks with guests from across Switzerland take place at the public discussion and performance table. Installative performances by Thi My Lien Nguyen and Zahra Hakim add sensory and experiential dimensions to these conversations. The film programme explores how cooking and eating can reveal and challenge social roles and cultural identities. In the family corner, visitors can take part in creative craft activities, while the Art Lab workshops for young audiences also draw inspiration from culinary practices.

Those who would like to explore Kunsttage together can register for one of the many free activities. Further information on the comprehensive programme, which includes a variety of tours of institutions and restaurants, is available online.

Kunsttage on the Plate

From creative fries to refreshing drinks – selected Basel venues have created special offerings, exclusively for Kunsttage Basel week. All participating venues are marked with an icon → on the map.

Super Saturday

Saturday, 29 August 2026, from 11:00: Super Saturday places live experiences at its centre. Experience artist Marc Bauer speaking about his work at the Kunstmuseum Basel, Zahra Hakim activating her food installation at the kHaus, and Ernestyna Orłowska performing "Make Your Body Your Machine" at Museum Tinguely. Join a tour through studios of Basel-based artists and don't miss the intense moments in Miet Warlop's "One Song" at Theater Basel. The evening concludes with DJ sets by international artists at YARD, followed by an after-party at the Bar René.

Super Saturday is a joint event by Kunstage Basel, Museum Tinguely, Kunstmuseum Basel, and Theaterfestival Basel.
